Start with Simple Shapes

- Basic shapes like circles, ovals, and rectangles serve as the foundation for drawing human figures.
- Using simple shapes helps children understand proportions and positioning before adding details.

Focus on Proportions

- Teaching kids the basic proportions of the human body, such as the head being roughly one-fifth of the total height.
- Emphasize that not all parts need to be perfect; practice makes progress.

Use Light Lines First

- Encourage kids to sketch lightly with pencils so they can easily erase and adjust their drawings.
- Building confidence with light lines allows for corrections and refinements.

Step-by-Step Guide to Drawing People for Kids

Breaking down the process into clear steps makes it easier for kids to follow along and create their own characters.

Step 1: Draw the Head

- Start with a simple circle or oval shape.
- Explain that the head is the starting point for most human figures.
