The Psychology Behind 'Did You Know?'

Curiosity as an Innate Human Trait

Humans are naturally curious creatures. From infancy, we seek to understand our environment, driven by an innate desire to reduce uncertainty. Psychologists have identified curiosity as a core motivator that enhances learning, creativity, and problem-solving.

The 'Did You Know?' format taps into this trait by presenting unexpected or surprising information, triggering an internal cognitive process: the recognition of something novel, followed by a desire to learn more.
